Pattern Placement
Diagram

Always tape, poke, and carve SHADOW pattern first.

SHIP TIPS

1. Tape pattern in position, as shown by diagram.
2. Save pattern and tips. Refer to while carving.
3. Scrape shadow area to about 1/2" thick.
4. Transfer and carve ship and stars.
5. Remove in sections as indicated by dashed lines.
6. Cut away extra pumpkin that distorts the "shadow" by sawing in a downward, diagonal stroke around the shapes.
7. Place pumpkin over a lit candle on a plate. Shine it on a wall and position the shadow before you place the primary pattern. Never leave a burning candle unattended.

ALIEN TIPS

1. In a darkened room, with the shadow projected on the wall, tape the primary pattern in position.
2. Transfer the pattern.
3. Save pattern and tips. Refer to while carving.
4. Carve the fingers, then eyes, nostrils, mouth, head, then around the outer circle.
5. Remove large sections in pieces as indicated by gray slash lines to protect your carving.
